

Sunshine Sessions

For parents and carers

Do you have a child with ASD?

Would you like support, advice and strategies?

If so this group could be for you:

The Language and Social Communication Service (LASCs) runs a support group for parents and carers of school age children undergoing assessment or diagnosed with Autism. During the group we focus on the positive aspects of children with social communication difficulties. It is an opportunity for parents and carers to share successful strategies in order to help and support one another. Come along for a coffee and a chat.

The Bridge Centre (next to Merton Bank School), Roper Street, WA9 1EJ

1pm – 2.30pm
